G3B EDUCATION / FREE PLANNING GUIDE

Your Global Education Playbook

A practical starting point for students, families and professionals.

Start with the person. Then make the plan.

Use these four steps to turn an open-ended ambition into a focused discussion with your counsellor.

01

Define your direction

Write down your interests, strengths, preferred subjects and longer-term goals. Decide what you want to explore: an undergraduate degree, a specialised master's, an MBA or a career pivot.

02

Build the evidence

For Grades 9-12, align subject choices with possible degree prerequisites. Document meaningful competitions, leadership, projects and community work. Record what you learned and contributed.

03

Compare your options

Shortlist courses by academic fit, entry requirements, learning format and total cost. Include a balanced range of institutions. Verify details on each university's official course page.

04

Work backwards from deadlines

Map tests, transcripts, essays, references and scholarship applications. Confirm each deadline and leave time for revisions. Review the plan with your family or support network.
